

Table 1.

Drug	Mechanism of Action
Upadacitinib	JAK-1 inhibitor
Filgotinib	JAK-1 inhibitor
Risankizumab	Monoclonal antibody directed against the p19 subunit of IL-23
Mirikizumab	Monoclonal antibody directed against the p19 subunit of IL-23
Brazikumab	Monoclonal antibody directed against the p19 subunit of IL-23
Guselkumab	Monoclonal antibody directed against the p19 subunit of IL-23
Etrasimod.	Sphingosine 1 phosphate receptor modulators
Ozanimod	Sphingosine 1 phosphate receptor modulators
Ontamalimab	Anti- mucosal addressin cell adhesion molecule-1 Monoclonal Antibody

JAK: Janus kinase; IL: interleukin
